## As Howie Mandel put it: “Catapult Entertainment has been CATAPULTED!”

Millions of people were amazed by the company and fell in love with our four network television presentations on the number 1 hit show America's Got Talent. Catapult has been touring worldwide ever since. We have performed live for the royal family in Saudi Arabia, wowed audiences in Geneva, Stockholm, Vilnius, Lithuania; Lagos, Nigeria; Monte Carlo, Lincoln Center in New York and of course Las Vegas, Nevada. In addition, Catapult has grown a devoted audience in Germany which has commissioned extensive touring for the third year in a row. Each year our touring has grown until now we are doing 4 months and over 88 shows all over the United States. Italy has also become a hot spot for Catapult and we just completed our second season of touring all over the country there with more than 10,000 people flocking to see the company. Plans are underway already for another tour of Italy and even more

extensive touring in Spain, France and England next year. Catapult has provided shadow choreography for an original musical bound for Broadway next season and continues to create new work and to innovate within the genre. No other company has our proprietary technology for creating colour shadows and our dance “Angel Heart” is unlike anything else out there. Many major corporations such as Bridgestone Tires, Girl Scouts and Pfizer Pharmaceutical have hired Catapult to represent their brand and tell their story. We were recently a special guest on the television show, Italia's Got Talent and our other television and film credits include four network appearances on America's Got Talent, several films for internet and appearances by the company's director, Adam Battelstein, on Good Morning America, The Today show, The Conan O'Brien show, The Oprah Winfrey Show and the 2007 Academy Awards.

The taking of photographs and the use of recording equipment of any kind during performances is strictly prohibited.

# Programme

## **Four Seasons**

A journey through Spring, Summer, Fall and Winter, this work features Vivaldi's wonderful music of the same name. The dance is a joyful and energetic shadow romp, filled with iconic images of each season from tulips and frogs to Christmas trees and Snowmen.

## **Milestones**

Milestones is the story of an entire life of a young girl told in 5 minutes. We journey with her as she plays in the sand, learns to ride a bike and grows up to fall in love, marry and have a child of her own.

## **Go West**

A high energy dance to music in the vein of Aaron Copeland and Enrico Morricone, Go West is a tribute to Pioneers, Cowboys and all things early American.

## **Spy**

Based on a short dance that won over the judges of America's Got Talent and television audiences all over the world, this is the story of a housewife who is also a secret agent. Her husband leaves for work and it is "Game On"!

## **INTERMISSION**

## **Angel Heart**

A mysterious and poetic story about a woman entering into the realm of visibility who is soon joined by two friends. Perhaps they are angels or spirits come to witness life on earth. This time, the dancers are in front of the screen and can be seen in silhouette with colour shadows behind them on the screen.

## **Bullies**

With beautiful imagery from a smoke breathing dragon to the lovely seahorse she meets underwater, this dance follows the story of a young girl who is bullied at school. Comforted by her little brother and her dog, she discovers a magic book. When the pages are opened, she enters a series of dream worlds, where she must face challenges and survive.

## **Dream**

A boy alone in a bleak world filled with crows and spiders, all symbols of death, must find his way to a place of acceptance. Along the way he stumbles into a haunted house with dancing furniture and meets the magical floating Fat Ladies who can channel his lost parents and must conquer his fears to wake up whole again.

## **A Traveller's Tale**

This is the story of a woman who leaves her family behind and travels the world with her children's favourite toy, a teddy bear. But the universe seems to test her resolve and circumstances conspire to try to wrest her precious bear away from her. Will she make it safely home?
